Dear friends and colleagues,

The 52nd Annual Scientific Meeting of the European Society of Paediatric Nephrology is to be held in Ljubljana from September 16 – 19, 2020.

On behalf of the ESPN 2020 Scientific Committee, we are proud to present the “Acute Kidney Injury in pediatric Intensive Care Unit” Pre-Congress course.

The course objective is to provide an overview of different techniques to care for infants and children requiring dialysis in an acute/intensive setting. Both CRRT and peritoneal dialysis modalities will be discussed and demonstrated. Hands-on practical aspects will be covered with machines in the room and exemplary scenarios will be presented with their optimal treatment approach.

The workshop therefore should be of interest both to physicians (pediatricians, nephrologists and intensivists), and to nurses who work in this setting.

Interaction between speakers and participants will be encouraged.

With our best regards,

Dr Isabella Guzzo                     Dr Fabio Paglialonga
