On behalf of the ESPN 2020 Scientific Committee, we are proud to present the “Nephrourology” Pre-Congress course.

The course objective is to provide an overview of the state-of-the-art approach to urological diseases that the pediatric nephrologist may encounter. Radiological diagnosis, surgical approach will be covered. Specialistic scenarios, including pre-natal diagnosis and preparation to renal transplantation, will also be addressed.

The workshop therefore should be of interest to pediatricians, nephrologists, urologists and radiologists who work in this setting.

Interaction between speakers and participants will be encouraged.
